

Year 6 termly information sheet

Welcome to the Summer Term

The Summer term is an exciting yet extremely busy time for us in Year 6 - the children's final term at Alban City School! It is normal to feel a little anxious as the end of term approaches but rest-assured, we have lots of ongoing support for the children. Please read on for some useful information about upcoming events and dates for the diary.

SATs

In the week commencing 13th May, the children will sit the standard assessment tests (SATs). We don't want anyone to worry about these, please just make sure the children are well-rested, eat breakfast and arrive at school in plenty of time. The arrangements will be as follows:

Monday 13th May

Grammar & Punctuation test

Spelling Test

Tuesday 14th May

English Reading Test

Wednesday 15th May

Mathematics Arithmetics (Paper 1)

Mathematics Reasoning (Paper 2)

Thursday 16th April

Mathematics Reasoning (Paper 3)

Secondary Transition

Throughout the term, we will include activities and lessons to support the children's transition to Year 7. Thursday 11th July is transition day when children will spend the day at their new schools.

Year 6 Residential

Our long-awaited visit will take place from the 12th - 14th June. We will be holding an information meeting for parents on Friday 10th May at 9am to share all the necessary information. We will also talk a little about SATS in this meeting too.

Leavers events

We are excited to be visiting the West End on Wednesday 17th July to watch Wicked at the Apollo Victoria Theatre. We also have our Y6 show on 5th July at 9:15am in the hall and our final assembly on Friday 19th July at 9.15am in the theatre.

Homework will continue to be set on Fridays using Google Classroom, however in the lead up to the SATs, children should be revising spellings, arithmetic and reading on a regular basis.

How you can help at home: Please encourage your child to read at least three times a week at home and hear them as often as you can. Working through the statutory spelling lists and supporting your child in all of their homework will be a great help. In addition to this, if you know your child still requires additional times table practice, please encourage this through regular repetition and the use of Times Table Rock Stars and Hit the Button.

In Year 6 our P.E is on Monday and Wednesday.

On Wednesday afternoon the class will be taught by Mr Bushell and Mr Clements.

Please do not hesitate to speak to us before and after school or by requesting a telephone call. We are looking forward to working with your child this term.

Best wishes

The Year 6 team

English

Poetry, Non-chronological report writing - huskies, research and drama around Charles Darwin.

Maths

Arithmetic revision with a focus on multiplication and division and fractions. Shape, space and measure and problem solving.

Science

Evolution and Inheritance is the topic for this term building on from the children's prior learning of the characteristics of living things.

P.E

Mr Clements will be teaching dance and tennis before half term and handball and rounders after half term.

R.E.

Linking with our learning about Buddhism, we will be exploring the philosophy of Humanism.

Geography

This term we are delving into the Extreme Earth topic, with a focus on mountains and volcanoes with a particular focus on the Himalayas and Mount Everest.

Art

The artist we will focus on is Banksy as we learn more about Street Art. We have a street art workshop planned for later this term linked to this topic.

PSHE

Money Matters – children will learn about budgeting and the importance of saving money.

Relationships and Sex Education - Changes during puberty, conception and different types of relationships. (More information available nearer the time)

Music

Body percussion (consolidating pulse and rhythm training through STOMP - style body percussion choreography). We will also be preparing songs for their Y6 performance and leavers' assembly.

Spanish

Topic: En el cafe - In the cafe. Ordering food and drinks. Preparing a menu of food, drinks and prices. Role play - taking orders and ordering. Noun / adjective agreement.

Computing

Use conditional algorithms to create games using video sensing.

Apply coding skills and knowledge from across the year to create fitness tools using a Micro:Bit.
